CHEMCO HAS THE SOLUTION WITHOUT POLLUTION

SEASONAL CLEANUP AND MAINTENANCE

CHEM-OX Acid Cleaner/Delimer After the winter thaw, swimming pools must be cleaned thoroughly of leaves, dirt, grease, algae and grime. Commonly, muriatic acid is used for this task, but its fumes can burn the skin, eyes and mucous membranes. Chem-Ox is a safe replacement for muriatic acid. Designed for really tough jobs, Chem-Ox's chemical action quickly penetrates, dissolves, and emulsifies dirt, rust, scale, lime, corrosion, soap scum, urine build-up, minerals, oils, excess concrete and mortar in seconds and leaves surfaces sparkling clean. Chem-Ox is also ideal for all acid-resistant surfaces, and is rust inhibited. Best of all, it's economical because it is concentrated.

POOL-BRITE Swimming Pool Paint Highly resistant to acid, alkali, salt and water, Pool-Brite is chlorinated, so that chlorine will not cause it to fade or deteriorate like most other paints used for this application. Pool-Brite is also rubberized, giving it the flexibility to withstand water pressure and temperature changes and keep it from peeling for an entire season, and in some cases for two seasons. Perfect for concrete or metal pools, and shower stall floors. Available in aqua, blue or white.

SANITATION AND DAILY MAINTENANCE

AL-AWAY Algaecide Al-Away destroys algae and slime on contact, eliminating slippery pool bottoms as well as ugly, unsanitary slime and algae formations that clog pipes and create additional work and trouble. Non-toxic Al-Away is safe and harmless to skin and eyes, and develops no strong odor or coloration. Water treated with Al-Away requires less changing, because its nonvolatile, heat-stabilized formulation helps it resist evaporation for longer effectiveness. Al-Away also features a buffering characteristic that helps water hold chlorine longer and stabilizes water pH. Ideal for swimming pools, fountains and water towers.

CHLORINE Due to the large number of people that typically share swimming pools and spas, it is paramount that the water be clean and germ-free at all times. Chemco supplies chlorine in granular, tablet and disk forms for this application. Please contact us for current pricing and availability.

GERMA-KILL Cleaner, Disinfectant and Deodorant This concentrated, broad spectrum germicide cleans, disinfects and sanitizes deck areas, bathrooms, floors, walls and shower facilities. Bactericidal and virucidal, it is proven effective against AIDS (HIV-1), Herpes Simplex I & II, Staphylococcus Aureus, Salmonella Choleraesuis, and Pseudomonas Aeruginosa. Areas treated with Germa-Kill maintain a residual, bacteriostatic property essential to achieving a hygienic environment.

Hurricane Clinging Bowl, Porcelain and Tile Cleaner Hurricane is a safe, versatile, and economical product designed to be an exceptionally effective restroom cleaner. Hurricane clings to vertical surfaces to descale, clean and deodorize every bathroom surface - showers, tubs, fixtures, stainless steel, sinks, mirrors and floors. Safe for porcelain, chrome and carpeting, Hurricane is also inhibited to protect plumbing and will not harm septic action.

DEO-MITE Drain and Toilet Blockage Remover The most powerful formula yet developed for drain opening. Heavier than water, it goes right to the problem area to begin dissolving and liquefying drain clogging matter. Contains sulfuric acid, but is non-fuming. Safe on PVC pipes, drains and tiles.

CHEMICAL MAINTENANCE AND BALANCING

pH MINUS pH Minus is a granular powder used to lower the pH level of pool water. pH Minus dissolves easily and allows pools to be used immediately after application. pH Minus protects both pools and equipment from scale buildup and other problems caused by high total alkalinity.

pH PLUS pH plus raises water pH levels, adding the necessary alkalinity and reducing acidity. pH Plus clears water made cloudy by low pH levels and helps maintain a proper chlorine residual.

pH HOLD pH Hold provides excellent buffering properties, which prevent pH level "bounce" in pool water. pH Hold raises total alkalinity in swimming pool water without affecting water pH, and protects metal pool hardware from damage due to acid.

DEFOAMER Highly-concentrated and made from food-grade raw materials, Defoamer is completely safe to use and instantly effective. This special formula prevents foaming caused by dissolved organic matter, and knocks down existing foam problems immediately. Defoamer is non-toxic and completely unreactive with other swimming pool chemicals.

OXYGEN SHOCK TREATMENT This advanced formula controls irritating contaminants, such as ammonia, chloramines and oils, in swimming pool water. Oxygen Shock Treatment is fast-acting, allowing pool use immediately after application. This state-of-the-art product contains no chlorine or bromine, is odorless, easy to use and highly-concentrated, making it an economical choice.

CALCIUM BALANCE Swimming pool walls may become pitted if the calcium balance of the water is not properly maintained. Calcium Balance helps prevent this damage in stainless steel, lined and concrete pools by correctly balancing calcium levels in the water.

POOLCIDE WINTERIZER This powerful algaecide is designed especially to handle the demanding task of properly winterizing swimming pools. Poolcide prevents algae, slime, and odors not only in pools, but also hot tubs, spas and whirlpools.

POOL PRIDE This natural enzyme-based sunblock, scum and blackline ring eliminator is formulated to make swimming pool water soft and silky. Pool Pride breaks down suntan oils and cosmetics, body oils and other organic waste, keeping pool water odor-free, as well as ensuring filters stay clean and free of clogs. Non-toxic, non-irritating and environmentally safe.

PERSONAL CARE AND FIRST AID

SCENTA-LATHER Coconut Hand Soap Refined coconut oil gives Scenta-Lather extraordinary softness and a pleasant scent. Blended oils and wetting agents give it a foamy feel and skin-soothing action. Contains no harsh abrasives or solvents. Comes in 20% and 40% solutions for economy or extra cleaning strength.

HAND-SMOOTHIE Waterless Hand Cleaner Hand-Smoothie liquefies grime and penetrates pores to remove grease, ink, tar, oil, paint and many other stains without harsh solvents, while it leaves lanolin-based skin protected. Manufactured from the purest ingredients, including lanolin, it protects and soothes hand, leaving the skin soft and supple. Available as a lotion (with or without grit), gel or liquid.

INSTANT BANDAGE Medicated Spray Bandage Provides instant medication and pain relief for minor cuts, burns and abrasions. Instant Bandage is a clear plastic bandage that helps prevent infection and lets air pass through to promote healing. Will not come off in swimming pool water to block filters or pumps.

TOPICAL ANESTHETIC Local Spray Anesthesia and Pain Reliever A medicated spray for quick relief of surface pain and itching due to cuts, burns, sunburn, insect bites and poison ivy.

GROUNDS CARE, FACILITIES MAINTENANCE AND PEST CONTROL

PERMA-GRAN Granular Total Weed & Vegetation Killer Perma-Gran is a safe, effective and approved dry granular method of soil utilizing Chemco's established Perma-Gran Bromacil formulation. With Perma-Gran you get a complete kill, nothing grows in soil sterilized with Perma-Gran for a year or more. Even hard to kill weeds and grasses such as Johnson grass, Canada thistle, poison oak, poison ivy, and Bermuda grass are destroyed by Perma-Gran.

WEED-O-KILL Soil Sterilant Weed-O-Kill is Chemco Industries' proven and accepted soil sterilant, with the widest variety of uses in cities, counties, industries and institutions. Its multi-part formulation achieves complete kill-off of existing weeds and grasses within six hours, going to work immediately through leaves, stems, stalks and roots. Special agents make Weed-O-Kill a low-drift product, meaning it stays where you put it with no bleeding or leaching. Weed-O-Kill not only kills existing vegetation, it also completely sterilizes the soil for a full season or more. You do not get a temporary brownout with Weed -Kill, you get a complete kill. Nothing grows in soil treated with Weed-O-Kill.

WEED-O-CIDE 1.2% Bromacil Residual Concnetrate A water-based, non-selective, total-kill herbicide with residual control. Strong enough to eliminate hard-to-kill weeds, and can be used for custom jobs. Destroys weeds form the roots up, providing long-term, full-season root kill. Highly dilutable, with a low odor formula.

WEED-BE-GONE Weed Killer Spray Weed-Be-Gone provides rapid knockdown, killing most weeds and unwanted vegetation within a few hours. It contains the potent vegetation killer 2-4-D and Bromacil, allowing it to control unwanted weeds and grasses for a full season. Weed-Be-Gone is packaged in convenient aerosol cans, making it easy and convenient to apply.

CONCRETE PATCH Quick-Curing, All Purpose Concrete Repair and Anchoring Compound Freshly-poured concrete reaches its maximum strength in 28 to 30 days. Concrete Patch's cutting-edge formula achieves the same maximum strength as concrete in only one day, while blending nicely with the original concrete color. Concrete Patch will be up to twice as strong a concrete within 28-30 days.

SAFETY STRIP Peel-Off Safety Tape Manufactured by 3M, this peel-and-stick tape provides a safe grip on slippery diving boards, deck areas, bathrooms and shower floors. Available in 4" x 50-foot rolls.

DRI-DEK Disinfecting Floor Mats A new innovation in floor maintenance. Dri-Dek floor mats not only prevent slips due to wet, slippery floors, but they also kill bacteria, fungus, viruses and other germs for five full years. Dri-Dek is available in seven colors, or in the custom color of your choice. Great for bath floors, shower stalls, other swimming pool areas, gyms and physical fitness areas. Comes in 12" squares.

BUG OUT Long-Lasting Residual Insecticide A spray residual insecticide that kills ants, roaches, spiders and many other crawling insects. May be used indoors or outdoors to eliminate insects from and create a toxic barrier to prevent them from returning.

WASP-AWAY Wasp and Hornet Killer Wasp Away is a synthetic pyrethroid for controlling houseflies, mosquitoes, gnats, wasps, roaches, ants, earwigs, spiders, grain mites, sowbugs and centipedes, as well as wasps and hornets. It's aerosol formulation makes it quick and easy to use.
